*Those interested may access the portal free of charge*

Popular announced the launch of its redesigned educational portal for business owners. The Popular Business Education Center, as it is called, offers articles and videos on five key subjects: Start your business, Technology, Human Resources, Finances, and Marketing. Clients from Popular, as well as the general public, may access the educational portal at [popular.com/business-education](http://popular.com/business-education).

The topics and videos hosted at the Popular Business Education Center take into account the information needs of established businesses as well as for people thinking about setting up a business.

The topic of Finances is one of the most attractive for clients. This section provides information on how to manage your finances and how to apply for commercial credit, including the different options available and the required documents.

The Business Education Center is part of the initiative My Business is Popular and is an addition to the wide array of services that the banking institution offers to small and medium business clients. These include networking events; Mi Banco Móvil, the app that allows customers to manage most commercial transactions from the mobile phones, available since 2012; newsletter; specialized financial products; orientation, and appreciation.

To learn about all the educational subject or more information about Business Baking services, access [popular.com/business](http://popular.com/business) or call (787) 756-3939.
